## INSPIRATION IS ALL AROUND US

Be inspired with bright whites and luminous hues with cellular shade colors based on the 2016 Benjamin Moore Color trends.

# WINDOW SHADES

INSPIRED BY BENJAMIN MOORE 2016 COLOR TRENDS

Wallauer's design center is taking the opportunity to bring together the 2016 Benjamin Moore color trends and our own line of custom cellular shades that coordinate to create a perfectly harmonizing color scheme for your home.

The 2016 color palette features "Simply White" as color of the year because of its versatility. It works equally well with cool or warm palettes and retains its neutrality; remaining constant under different light sources.

If your looking to add a little color, there are an additional 23 Benjamin Moore color trend options and 24 designer picks which were chosen by Wallauer's team of designers.

Walls: Gray Owl OC-52, Weimaraner AF-155; Cellular Shade: Mascarpone AF-20

Wall: Ballet White OC-9; Cellular Shade: Blue Echo AF-505

## Design Tip

These light hues create a comfortable feeling in larger common areas like open kitchens and living room/dining room areas

## Design Tip

Remember the 60-30-10 rule when choosing color for a room. You will instantly feel a balance.

ie. 60% dominate color,  
30% secondary color,  
and 10% accent color.

Color is a personal choice. As paint and blind colors may vary depending upon light and substrate, Benjamin Moore paint colors and coordinating shades may not be a precise match.

As printed renditions of painted substrates and fabric can only approximate the actual colors, please use actual products when making a color selection. Benjamin Moore & Co. and Wallauer's do not make any representations regarding color matching.

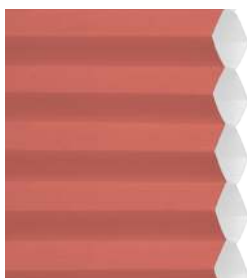

## Design Tip

Dark, dramatic colors work well in spaces flooded with natural light.

This can create a captivating ambiance with a warm welcoming feeling.

## SAFETY IS KEY WITH

# HARDWARE OPTIONS

Make the Right Choice  
kids...cords...caution

windowcoverings.org

### Create the ideal shade

with hardware that fits your lifestyle so you can create a room you'll love. The shades in this catalog come standard with fabric wrapped rails for a seamless look. The fabric used to cover the rails is the same as the shade. The back of the rails remain white, matching the back of the shade. Brushed Nickel or Oil Rubbed Bronze hardware is a sophisticated, contemporary option that coordinates with stainless appliances and other metal fixtures. Available on all shades using Cordless Lift & Lock and Cordless Ultra Hardware.

### Cordless Ultra™ System

Push the handle up or pull down to position your shade. Provides a safe environment for children and pets and enjoy the easy operation and cord-free look.

Fabric wrapped rails feature frosted clear end caps.

Cordless Ultra System  
Fabric Wrapped

Cordless Ultra System  
Brushed Nickel

Cordless Ultra System  
Oil Rubbed Bronze

### Top Down-Bottom Up

Allows you to lower shades from the top or raise them from the bottom to maintain privacy while letting in natural light. Perfect for bathrooms and bedrooms! Brushed Nickel or Oil Rubbed Bronze available on all Top Down - Bottom Up shades using Cord Lock and Cordless Ultra.

#### Cordless Ultra

Top Down - Bottom Up  
Fabric Wrapped

Perfect flexible light control. Simply push up or pull down on the moving rails, which stay in place right where you put them.

#### Cordless Lift & Lock

Top Down - Bottom Up  
Fabric Wrapped

The push button operation provides the widest view thru with the lift cords set far to the outside of the shade giving you a clear view to the outside.

### Cordless Lift & Lock System

#### Cordless Lift & Lock System

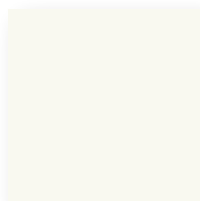

Fabric Wrapped

Cordless Lift & Lock Shades can be raised or lowered by pressing the button located on the bottom rail and guiding the rail into the desired location.

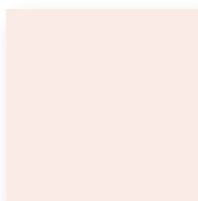

All our products meet the highest standards for safety and dependability. Our products have been fully tested and proven to comply with the current WCMA standards.

## FILL YOUR SPACE WITH PEACEFUL SIMPLICITY

An airy color palette with a neutral base and soothing pastels creates an inviting quietly expressive space.

Wall: Gray Owl OC-52; Basswood Blind: Port Oak 6114

### Decorative Valance

The subtle curves of the valance creates a truly elegant silhouette along the top of your wood blind.

### Cordless

Cordless hardware provides a streamlined look.

### Standard Routing

Rout holes are punched in each slat to make way for the lift cords.

### Routeless

Without rout holes in the slat, Routeless blinds provide tighter slat closure for greater light control and privacy.

## Color Disclaimer

Despite every effort to accurately depict each product's color, actual colors in this catalog may vary. In addition, due to subtle color and texture differences, images on our website may not be fully represented due to variations in individual monitor settings. We encourage all customers to visit one of our locations to view physical swatches before placing an order.

There are natural variances in our wood blinds color and grain that may cause dye lots to vary. Although these variances are minimal, we can not guarantee an exact color everytime.

If you are ordering multiple blinds or shades and want the colors to be an exact match, make certain all shades are purchased at the same time so they are manufactured from the same material lot. We can only guarantee a color match for products that are purchased together.

## Wallauer's Lifetime Guarantee

Your satisfaction is our top priority. We guarantee the quality of our products and we want you to be completely satisfied with your purchase. Wallauer's Lifetime Guarantee is designed to provide you with a thoroughly satisfying experience with your blinds and shades purchase.

In support of this policy of consumer satisfaction, we offer our Lifetime Limited Warranty as described below.

### Covered By A Lifetime Limited Warranty

- Wallauer's blinds and shades are covered for defects in materials, workmanship or failure to operate for as long as the original purchaser owns the product
- All internal mechanisms
- Components and brackets
- Fabric delamination
- Operational cords for a full 7 years from the date of purchase
- Repairs and/or replacements will be made with like or similar parts or products
- Wallauer's motorization components are covered for 5 years from the date of purchase

### Not Covered By A Lifetime Limited Warranty

- Any conditions caused by normal wear and tear
- Abuse, accidents, misuse or alterations to the product
- Exposure to the elements (sun damage, wind, water/moisture) and discoloration or fading over time
- Failure to follow our instructions with respect to proper installation, cleaning or maintenance
- Shipping charges
- Costs of removal and reinstallation
- Different warranty applies to commercial projects (see Commercial Warranty)

Wallauer's will repair or replace the window fashion product or components found to be defective.

### To Obtain Warranty Service

Contact Wallauer's at (844) 944-0003 for additional warranty information, frequently asked questions, technical support or for further information.

# Child Safety

All our products meet the highest standards for safety and dependability. Our products have been fully tested and proven to comply with the current WCMA standards for safety of corded window coverings.

Be aware that it is possible for children to become entangled in window covering cords. To reduce the risk of accidents, all cords must be kept out of the reach of children.

A cord tensioner is an effective way to implement this essential precaution. Please use them. Cord tensioners keep the continuous cord loops taut to prevent children and pets from becoming entangled and subsequently injuring themselves. Cord tensioners must be used with all roller shades to comply with the Window Covering Manufacturers Association Cord Safety Guidelines.

Each of our product categories offer a variety of motorized, cordless, and corded window treatments allowing you to choose the product that best meets your household needs and preferences.

**Make the Right Choice**  
**kids...cords...caution**

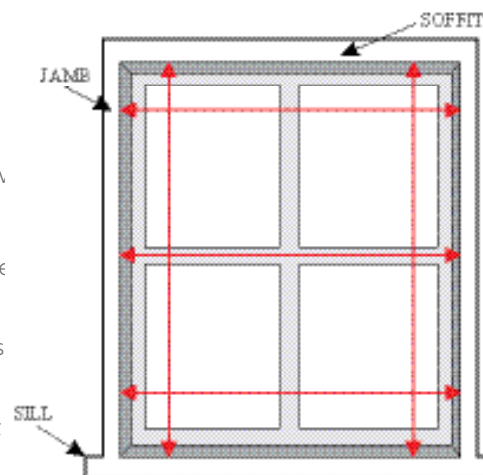

## Measuring Considerations

Wallauer's blinds and shades are custom fabricated to your specifications. Precise measurements are required to ensure that you receive the correct size for your window. Use a metal tape measurement to measure your windows. We accept measurements down to 1/8" increments.

### INSIDE MOUNT

Inside mounted blinds or shades are contained within your window frame. Many people prefer an inside mount because it provides a finished, built-in look without covering the window molding; it is also suggested for the 1st layer of a layered window treatment.

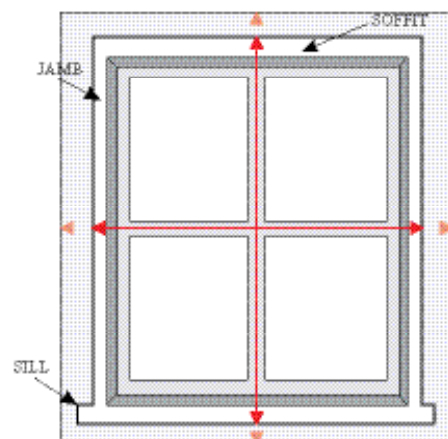

Measure across the width of the window opening in three different places: top, middle and bottom. Measurements should be taken within the window jamb. Provide the smallest of the three measurements. Be exact! We will make the necessary deductions to fit the window opening. Measure the length of the window opening from the underside of the soffit to the surface of the window sill in two places. Use the smallest of these two measurements.

### OUTSIDE MOUNT

Outside mounted blinds or shades are mounted on your wall or molding. Outside mounts can be used to make a window appear larger, to hide less than attractive windows, or when there is not sufficient frame depth for inside mounting.

Measure the exact width and length of the area to be covered. On the width, allow at least 1½" of overlap on each side. When the installation has no sill, allow the shade to overlap the bottom of the window casing by 1½". Be sure to take into consideration any obstructions such as window trim, molding, locks and cranks.
